Attachment: Processing Method for "Standardized Weighted Average" of Southeast University

1. Standardization: The average score of each course is shifted to 80 points. Generally, for each student, the standardized score of the i-th course is $N_i = \text{exam score} + (80 - \text{average score})$.
2. Weighted Average: The standardized score N_i for each course of the graduate student is weighted by the credit C_i , and the standardized average score is obtained.
